Summary

Third-year Computer Science student interested in full-stack development and machine learning. Experienced in building web applications using Python, Django, React, and relational databases. Seeking a software engineering internship or entry-level opportunity.

Education

Bachelor of Technology in Computer Science and Engineering **Sept 2024 – May 2028**
IES University (CGPA: 8.3) *Bhopal, Madhya Pradesh*

Projects

Blog Application | *Python, Django, MySQL, Bootstrap* **GitHub**

- Developed a blogging platform that allows users to publish blog posts and read content shared by other users.
- Implemented backend functionality using Django to manage blog creation, content retrieval, and database operations.
- Integrated MySQL for persistent data storage and Bootstrap for responsive interface components.

Stock Prediction Portal | *Python, Django REST Framework, React, PostgreSQL, ML* **GitHub**

- Built a web application to analyze stock prices, visualize market trends, and estimate potential profit and loss.
- Connected the React frontend to Django REST Framework APIs to retrieve stock data and display prediction results.
- Integrated machine learning functionality to estimate future stock prices and identify potential market trends.

Technical Skills

Languages: Python, C, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks and Libraries: Django, Django REST Framework, React.js, Bootstrap
Databases: MySQL, PostgreSQL
Tools: Git, GitHub, Postman, VS Code, Render, Vercel, PythonAnywhere

Achievements
